PROFESSIONAL SUMMARY

Aspiring Computer Science and Engineering student eager to work in the IT industry, passionate about building practical applications and solving real-world problems through strong technical and soft skills. Quick to understand project requirements and always learning, with a consultative, solution-driven approach to software development.

EDUCATION

B.E. in Computer Science and Engineering Nov 2023 – Jun 2027
KVG College of Engineering | Sullia, Karnataka | SGPA: 9+

PROJECTS

EcoGuardian – AI-Powered Coastal Waste Detection & Smart Cleanup Management Sep 2025
Python, Flask, Gemini AI

- Built an AI-based platform using Gemini AI to detect and classify beach waste, and predicted coastal waste hotspots to optimize cleanup team deployment.
- Implemented a real-time cleanup tracking and reporting dashboard that streamlined monitoring from detection to resolution.

Smart Ambulance Traffic Clearance System 2025
Python, REST API, HTML, CSS, GPS

- Designed a system with REST APIs connecting live ambulance GPS tracking, traffic signal logic, and a web-based monitoring interface.
- Solved delays in emergency response by automatically prioritizing traffic signals, earning 2nd Prize in the college Mini Project Exhibition.

Weatherwise: AI-Powered Weather Forecasting System 2025
Python, Flask, Weather API

- Developed a forecasting platform integrating live and historical weather data with an interactive interface for predictions and alerts.
- Created a proactive alerting system that improved user preparedness ahead of severe weather conditions.

INNOVATION EXPERIENCE

Student Innovator — Grassroot Innovation Programme 2025 Sep 2025
Government of Karnataka, Dept. of Electronics, IT & BT | Karnataka, India

- Selected for a state-level programme; applied design thinking to develop and pitch technology solutions for real-world civic challenges.

TECHNICAL SKILLS

Languages: Java, C, Python, SQL, HTML, CSS
Databases: MySQL, MongoDB
Frameworks & Tools: Gemini AI, Weather API, VS Code, Git, GitHub **SOFT**
SKILLS

Problem-Solving, Communication, Teamwork, Leadership, Adaptability, Time Management
Languages: English, Kannada

CERTIFICATIONS

Responsive Web Design — freeCodeCamp	Programming in Java — NPTEL
Cloud Computing — NPTEL	Introduction to Data Analytics — Simplilearn
TCS Tech Bytes — TCS & Govt. of Karnataka	Enterprise Design Thinking — IBM SkillsBuild
AI Data Engineer — Bravynex Engineering	

LEADERSHIP & ACHIEVEMENTS

- Served as Joint Secretary of KVG College of Engineering (2024), coordinating student activities and college-wide events.
- Ranked Top 12 of 75 teams in the MakeForMangaluru Hackathon (Titan Company), qualifying for the final round.
- Recognized as Class Topper for 4 consecutive semesters.
- Secured second prize in the mini project exhibition for developing the smart ambulance traffic clearance system.
